ROUNDTABLE PIZZA - FIRST AND BULLARD

AT THE LAST MEETING

We had a very good turnout for the October meeting at the Round Table. We had to pull together 4 or 5 tables so we could all sit together.

Among the many things discussed that evening was the future of this newsletter. For too long we have depended on the generosity of a few individuals in the club for all the cost of publication and postage. We thank them for their generosity.

I brought up the idea of reader financial investment. After some discussion, apparently all in attendance felt that a \$10 per year newsletter dues would be appropriate. Any funds left over at the end of the year will be used on the Holiday party.

The newsletter will be condensed to just a few pages each month but could expand with reader donations of material. Should you wish to continue to receive your monthly copy of Runnin' Hot for 12 months, please bring a check to the next meeting for \$10 or send a check for \$10.00 to: RUNNIN' HOT c/o Marty Hardison, 8344 N. Sharon Ave. Fresno, CA 93720. The newsletter will only be sent to those who have paid for their "subscription", to new or prospective members for one or two issues and one to any other Brit club that sends us their newsletter.

I will need a check from those that are interested by the 15th of November for the December newsletter.

Next Event

Make plans now to attend the Holiday Party at Debilyn and Kevin Molineaux's home in the foothills. The date is set for Sunday, December 14. Time and directions will be announced in the next newsletter.

See you on Tuesday....

LEGISLATIVE COUNSEL'S DIGEST

SB 42, Kopp. Air pollution: vehicles: inspection and maintenance.

OK, YOU CAN START TO BREATHE NOW!

THE GOVERNOR SIGNED IT INTO LAW

Existing law exempts any motor vehicle manufactured prior to the 1966 model-year from provisions requiring vehicles powered by internal combustion engines in certain areas of the state to obtain a smog check certificate of compliance or noncompliance biennially, upon transfer of ownership, or upon registration of a vehicle previously registered outside the state.

This bill would, instead, exempt from those requirements any motor vehicle manufactured prior to the 1974 model-year or, beginning January 1, 2003, that is 30 or more model-years old.

SECTION 1. Section 44011 of the Health and Safety Code is amended to read:

44011. (a) All motor vehicles powered by internal combustion engines which are registered within an area designated for program coverage shall be required biennially to obtain a certificate of compliance or noncompliance, except for all of the following:

- (1) Every motorcycle, and every diesel-powered vehicle, until the department, pursuant to Section 44012, implements test procedures applicable to motorcycles or to diesel-powered vehicles, or both.
- (2) Any motor vehicle which has been issued a certificate of compliance or noncompliance or an emission cost waiver upon a change of ownership or initial registration in this state during the preceding six months, or which has been issued a certificate of exemption pursuant to Section 4000.6 or 4000.7 of the Vehicle Code.
