## THE SCHEDULING...

by Debilyn Molineaux

Nearly every month, Kevin and I attend the club meeting. We arrive early, mostly because we know Tom & Nancy and Carol & Jerry will already be there. We chat about our day, what's going on in our lives and, of course, the cars. Someone has always seen something for sale that was a bargain, overpriced or a '50/50' car. As the table gradually fills, we begin discussing the next few events. Amid the cacophony of voices, we set a tentative schedule. Then begins the more difficult task... deciding which events to attend. When can family be visited, the garden tended, the house cleaned, the car worked on with time left over to enjoy our car buddies? It's a labor of love, for we enjoy driving through the countryside, sharing a meal and wondering who will make it back on their own power.
