The British Sportscar Enthusiasts went where even fine German automobiles feared to tread... The spring tour to Yosemite was great fun! Out of 8 cars, we suffered one casualty, lost one car in the vicinity of the Ahwahnee lounge (or bar) and the Hinsch's TR 250 got road water on it for the first time. A baptismal of sorts... At the stop in Oakhurst, Glen's TR 6 was unanimously voted the dirtiest car on the tour. However, by the end, the TR 250 was (in Tom's eyes, at least) a close second.

We recently received a calendar of British Events from Moss Motors. A list of the events in California is included on the right. On a more urgent note, the first event listed is a show in beautiful, nearby Coalinga featuring MG. Since this falls on April 23rd, the Sunday following our next meeting, anyone interested should contact Kevin & Debilyn Molineaux at Arcane Automotive, 436-1041. We'll discuss rendezvous times and places at the meeting on the 18th.

**BRITISH CAR CLASSIFIEDS:** (You probably don't need it, but then, who really needs a British Sportscar anyway?) Since a phone number is now listed in the newspaper, we have received several calls from people who are actually (gasp!) selling their cars. Let us know if this is appreciated or just a waste of a Spotted Owl's home.

1952 MGTD completely restored. New wood, rebuilt engine, suspension, etc. Yellow/black with steel wheels. Selling due to failing health. Asking \$12,500. Jerry Clark, 255-9666.

1978 MGB Brown/Tan with Rostyle wheels. Decent body. Suffering from 5 years outdoor storage. Needs top, interior, tires, probable fuel & hydraulic systems work. Was mechanically sound with new complete smog equipment when parked. Parts car or restoration project for the truly ambitious. Asking \$500 OBO. Lynn, 645-1905.

1974 MG Midget Beige/Black with Rostyle wheels & '72 (chrome) bumper overriders. New paint, canvas top, weatherstripping & exhaust. Very nice interior with floor mats & sheepskins. Brakes are redone with new rotors, pads, shoes, wheel cylinders, hoses, front wheel bearings & seals. Rebuilt brake master cylinder, calipers & clutch hydraulics filled with silicon brake fluid. Emissions equipment is complete with rebuilt SU's. Lots of fun! Asking \$3450. Kevin Molineaux, Arcane Automotive, 436-1041.

1979 Triumph TR7 convertible with 62K original miles, very nice. \$4995, firm. Glen, British Auto Store, 485-6423.
