Something to fill this space. Articles,  
cartoons, stories. Original or plagiarized.  
Printed free of charge.

Last month's meeting was great fun, with many Jag owners. Talk centered around Jaguar (obviously), everyone looked at pictures of the newly restored '51 MG TD, proudly presented by Bob & Karen McLanahan. Conversation took a turn to include 'bad bugs & cars', including the best way to kill the unfriendly arachnids who've made themselves at home in the restoration project. Personal favorite: propane torch.
